

*Received 12/30/05*

*At first I was a little skeptical about the surgery. But once the procedure began I knew that I was in good hands. Once it was over I felt a big weight lifted knowing that everything went good. Now I can see the whole world clearer and without having to wear glasses thanks to Dr. Caro and his staff. I recommend it with 100% satisfaction. I would send you an autographed picture so that you can put it up with the rest of those famous people you have on your wall but I am not there yet.*

*Thank you very much Dr. Caro*
