

Received December 29, 2005

Hi, I had my Lasik surgery a few months ago, I was referred by my friend who had surgery with Dr. Caro 3 years ago. I love my new vision. Dr. Caro and all the staff were great. My whole surgical experience was awesome. The whole procedure took just a few minutes in the surgical suite, I felt absolutely no pain and I was able to leave a few minutes after surgery. The next day when I woke up and "I COULD SEE"!!!! My vision was almost as good as with my contacts and after a few more days my vision was even better than that. I'm truly grateful to Dr. Caro and to the whole staff at the St. George Eye Center and I have already sent quite a few friends so they too can enjoy life free from their contacts.

Sincerely,  
An extremely satisfied patient!!
