

Received January 10th, 2006

Dear Dr. Caro and Staff,

This was by far one of the best experiences I have had regarding the medical profession of any kind. I am an admitted "chicken" when it comes to anything involving going to a doctor, but the attention I received at St. George was very comforting. Every question is answered, and the staff is very in tune to your needs. As far as Dr. Caro himself, he just blew me away, with his concern for me as a patient. I have recommended St. George, and Dr. Caro to many friends, who are now considering this procedure, because of how good the quality of care is at the center. One other thing; you guys make a great first impression, your waiting area is clean and comfortable. I have been in other offices and the waiting area alone made me rethink my choice in a professional. Thank you so much for taking care of me and my eyes, my vision is getting better every day.

Sincerely,
Nancy Geldermann
